MELTING AND REFINING DEPARTMENT,

Philadelphia, 25th June —, 1880.

Sir,

We have so far progressed in making a settlement that all my force can be discharged to day except 12 men, including the two furnace builders, Brooke and Kerlin. We can dispense with four of the remainder on Tuesday; with two others as soon as the Commissioner from the Treasury Department (if one should come) shall have weighed the balances, and the remaining six will be retained for building up furnaces & flues until the close of the week. If we could obtain a couple of masons from the Coiner's force, we could close out entirely by Wednesday or Thursday of next week.

Very respectfully yours
